Re: Petition for Public Records Disclosure Order:
Oregon Parks and Recreation Department
DOJ File No. 634900-GA0024-13

Dear Mr. Kennedy,

This letter is the Attorney General's order in response to your petition asking our office to direct the Oregon Parks and Recreation Department (OPRD) to disclose certain public records to you. Your petition recites that, in August and October of 2012, you requested "all public records regarding" Canby Asparagus Farms, Casa de Tamales, Brandon Maes & Charles Maes, but received no response from OPRD.

We contacted OPRD following receipt of your petition, and learned that OPRD had in fact disclosed records in response to your request in October. OPRD provided us with an internet link from which records responsive to your request were available for download. We forwarded that link to you. On your behalf, Marty Capetz indicated that we should nevertheless respond to your petition, asserting that the response was incomplete. OPRD then informed us that, prior to its October response, OPRD staff had attempted to solicit information from you about the time period for which you wanted records, but received no reply. OPRD further stated that, given your correspondence with our office, OPRD would provide you with any additional responsive records shortly, after reviewing them for exempt materials. In light of OPRD's willingness to provide you with additional records now that your petition has shed light on the intended scope of your request, we respectfully deny your petition as moot. Should OPRD withhold or redact any documents on the basis that they contain information that is exempt from

public disclosure, you may seek the Attorney General's review of those determinations by a separate petition.

Sincerely,

Mary H. Williams
Deputy Attorney General
