SUBJECT	**Re: Public Records Request**

Records Requestor,

The Department does not typically work with these branches of the Oregon State Police (OSP). However, to account for the possibility of prior communication, key staff members most likely to have received such communications were asked to search their e-mail records for any correspondence that may be responsive to your request. These searches did not identify any results meeting your criteria.

If you would like a more comprehensive search to identify additional communications that may not have been captured through the searches described above, DOGAMI would need to engage a trusted third-party e-mail service. The service is quoted at an estimated $164 per hour. Because this search would require the use of an outside service, I am unable to waive or discount the associated costs.

The timeframe for completing a third-party search would depend on the service provider's availability and processing schedule, as well as the specifications of your request. Factors that may affect the timeline include the selected date range, search terms, and the number of staff e-mail accounts included in the search.

Please let me know if you would like the Department to proceed with obtaining a quote for the third-party search.

Kind Regards,

[DOGAMI Staff] | Office Operations Assistant
