SUBJECT	**RE: Public Records Request-Status Update**

Good afternoon,

I reached out to current leadership regarding your request to see if there were any responsive communications. So far, there are not responsive documents.

Due to the workload of our public records request coordinator and me, I am slower to respond, for which I appreciate your kind patience. It is my intention to have a complete response to you by the end of next week, including search results from prior employees' email.

Best regards,
