SUBJECT	**RE: Public Records Request**

Robert,

Thank you for your email. Our IT staff is currently running an eDiscovery search to try to locate any of the terms you had provided before in Teams chats and we should have that completed by end of the week. However, we may need to involve another agency (DAS) IT to aid in searching for the records and I am unsure at this time on when they will be able to provide assistance on this matter.

Thank you,
