SUBJECT	**Re: Public Records Request**

Public Records Officer,

I am not trying to make your life difficult. I am asking you to follow the statute you are bound by. It is not relevant how many staff you have or that you know you have not contacted Oregon State Police. What is relevant is providing the public records I requested. You have not stated that you searched those four mailboxes. You have not provided a receipt of the search. Both are requested in my public records request. Until you fulfill the obligations of the statute, I must continue to insist you do so.

Robert Samuel White
