SUBJECT	**Re: The Attorney General's public records orders**

Mr. Neff,

My last reply could be interpreted as a characterization. It is the reasoned position of a member of the public telling a real journalist a conclusion he should be able to reach on his own. I withdraw it. I wrote you a novel from the record and you flattened it. I watched you do that. These orders are not about me and I am not responsible for telling you what they say. I gave you the data. What you do with it is your business.

Respectfully,

Robert Samuel White
