Good morning, Robert:

Thank you for your very thorough fee waiver request. I'm not currently anticipating any fees associated with fulfillment of your request to ODF, so there may not be any fees to waive. However, I'll know for certain once I receive the results of the email search I've requested from our IT program. They have several other email queries in the queue ahead of this one, but I'll circle back with you as soon as I get those records and can more accurately determine whether there will be any fees and estimate a fulfillment date for your request.

Thank you.
