SUBJECT	**RE: Petition for a Public Records Order: Department of Emergency Management**

Mr. White,

Because ODEM does not have records responsive to your request, it completed its response to your request without charging a fee it had previously estimated. As a result, there are no issues left to address-ODEM's response is complete and it has closed your request. We have no reason to second-guess the efficacy of ODEM's search for responsive records. So, to the extent your November 13, 2026, correspondence asks this office for an order, that request is denied.
