SUBJECT	**ODHS Public Records Fee Waiver Request Approved - MWVFW7N**

Good afternoon, Robert,

After careful review of your fee waiver request, we have determined that the public interest in disclosure of the requested records warrants granting a fee waiver in this instance. In reaching this determination, we evaluated your request using the applicable public interest criteria and considered the information you provided, together with information known to the agency regarding the scope of the request and the resources required to process it.

Accordingly, your fee waiver request has been approved, and we will resume processing of your request. Based on the information currently available, ODHS expects to complete its response to this request by December 9, 2026.

Please note that requests for public interest fee waivers are evaluated on a case-by-case basis. Each request is assessed based on its own facts and circumstances, including the nature of the records requested and the information available at the time of review. As a result, approval of a fee waiver for this request should not be interpreted as a guarantee that a fee waiver would be granted for any future request.

Sincerely,

Public Records Unit
Oregon Department of Human Services
